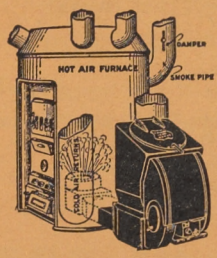
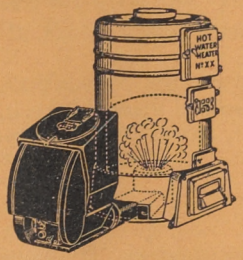
THE AUTOMATIC STOKER

MODERN SOCIAL STANDARDS demand the elimination of CHORES of providing HOME HEAT. The increasing EXPENSE of same also demands that maximum COMFORT be obtained at a MINIMUM COST.



DRESS and HEALTH also demand THAT THE DESIRED INTENSITY OF HEAT be maintained evenly in the home without having to take into account the daily or seasonal variations in outside temperature.



All can be obtained by installing the AUTOMATIC STOKER as illustrated here and manufactured by the VULCAN IRON WORKS LIMITED in Winnipeg.

Further: if your heating system is sluggish or too small, the AUTOMATIC STOKER will also improve this.

There is an AUTOMATIC STOKER for every class of heating—HOT-AIR, HOT WATER or STEAM BOILER—for the smallest home or the largest Apartment Block.

QUICKLY INSTALLED AT ANY SEASON

The Classified Section of the City Directory insures your business against the loss of a prospective customer who finds only your competitor listed under headings covering your business

Make yourself easy to find

Introductory

The present volume for the year 1942 is the sixty-fourth edition of Henderson's Directory of Winnipeg, the first being published in 1878.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 266 to 280 and contains data concerning City, Provincial and Federal Government offices, commercial organizations and military organizations.

THE STREET AND AVENUE GUIDE gives the names of all streets and avenues arranged alphabetically, showing the location, number on the street and name of the occupant. The intersecting streets are shown in the order that they come.

The BUYERS GUIDE occupies the front pages. This section of the Directory, printed on colored paper, includes numerous advertisements of the leading manufacturing, business and professional interests. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, however, but rather are reference advertising at its best. The need for this kind of information readily at hand is very great and the general appreciation of this need is evidenced by the liberal patronage the City Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations commences on page 521.

THE CLASSIFIED BUSINESS DIRECTORY at the back of the Book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

ADVERTISING WINNIPEG

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the directory in the directory libraries where they are readily available for reference use by the public. There they serve as perpetual advertisements of Winnipeg, for business men the country over realize that the City Directory represents the community as it really is.

POPULATION GREATER WINNIPEG 327,123

The Directory estimate of population is based on the actual number of individuals' names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Winnipeg Directory covers considerable territory beyond but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Winnipeg may be obtained.

Respectfully, The Publishers,

HENDERSON DIRECTORIES LIMITED.

January, 1942.

PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

City of Winnipeg

City Seal

The above is a fac-simile of the City Seal, adopted by Council June 1st, 1874, the motto of which is "Commerce, Prudence, Industry." The significance of the emblazonry thereon may be described as follows:

The Buffalo, the hardy, fearless, nomadic monarch of the plains, who had original possession and held sway where the City of Winnipeg now stands.

The Engine, the civilizing mechanism of man's ingenuity, displaced the buffalo, was the forerunner of prosperity, and is the means of social and commercial communication which the City enjoys with the world.

The Sheaves of Grain represent the source from which the prosperity of this City emanated and are emblematic of our City as the Gateway of the Golden West and as the greatest grain centre in the world.

The City of Winnipeg is the capital of the Province of Manitoba, Canada.

The name WINNIPEG has the origin in the Indian Cree name given to the lake 40 miles north, meaning "Win," muddy; nipee," water.

Winnipeg is situated in Latitude 49° 54′ N., Longitude 97° 08′ W., at the confluence of the Red and Assiniboine Rivers; 40 miles south of Lake Winnipeg and 60 miles north of the boundary lines between Canada and the United States of America, almost midway between the Atlantic and Pacific Oceans and at an altitude of 760 feet above the seaboard level of New York.

From a Hudson's Bay trading post (Fort Garry) in 1870, with a population of 215, Winnipeg has grown to the size and finish of a first-class city of 315,000 people. When the city was incorporated in 1873 there were 1,869 inhabitants. In 1878 steam railway connection from St. Paul, Minn., had reached a point just across the river from Winnipeg, and in 1886 railway communication was established over the Canadian Pacific Railway from the East. With the advent of railway connections a steady stream of travel and trade with influx of population was started and has resulted in the building up of a city of a size and importance that is exceeded by only two cities in the Dominion of Canada.

Winnipeg is now the greatest grain centre on the American continent, and the financial ,commercial, wholesale and manufacturing centre of the middle west; owing to its geographical position, its very complete railway facilities, with branches reaching out in every direction, it affords great possibilities for trade in the provinces and the Northwest and an inducement for the establishment of manufacturing and other industries. In addition to the many other advantages Winnipeg suplies, through its Municipal Hydro Electric system, the cheapest electric power of any city in America. The new soft water supply is adequate for the needs of a city of one million inhabitants.

The Council is composed of a Mayor and eighteen aldermen. The Mayor is elected every two years from a vote of the entire City. Three aldermen are elected annually from each of the three wards into which the City is divided and hold office for a term of two years. By provisions of the Winnipeg Charter only those persons whose names appear on the last revised list of electors, and who are natural born or naturalized subjects of His Majesty and of the full age of 21 years, able to read and write, who are resident within the City, and who have such other qualifications as the Council may fix by by-law and are not subject to any disqualification under the Charter, shall be eligible for election as Mayor or Alderman.

Winnipeg has 70 public schools, with an attendance of over 40,000; 6 colleges; the Provincial Agricultural College, built at a cost of $4,000,000; the University of Manitoba; art gallery; bureau of arts and arts museum; permanent exposition of products manufactured in the city; 3 libraries with 35 branches.

The Public Schools are under the control and supervision of the Board of School Trustees, composed of fifteen members, five for each of the three wards.

The Police Department is administered by a Board of Police Commissioners, which consists of the Mayor, the Senior County Court Judge, the Police Magistrate and two members of the City Council appointed annually.

PUBLIC PARKS

There are 45 public parks and squares in Winnipeg, with a total area of 1,045 acres. These, with the exception of Assiniboine, Kildonan, St. Vital and Wildwood Parks, and the two Golf Courses, are located within the city limits, or close thereto, so as to afford open-air space and recreation grounds easily accessible to the citizens.

The Public Parks of the City are placed under the control and supervision of a Public Parks Board, composed of the Mayor, seven other members of the City Council, and also six ratepayers appointed by the Council. For the purpose of providing for the expenditures required for park purposes, the City is empowered to levy a special annual rate not exceeding one mill on the dollar upon the assessed value of all the rateable property in the City, such rate to be called "The Park Fund Rate."

HUDSON'S BAY COMPANY HISTORICAL EXHIBIT

The Historical Exhibit on the fourth floor of the Winnipeg Store is the only Fur Trade museum in Canada, and the finest private historical collection in the Dominion. Laid out according to the most modern museum technique, it illustrates the history of the western Canadian frontier from its beginnings to the present day.

The first part of the Exhibit deals with the chief developments in the history of this frontier. The first white man set foot in what is now Manitoba, as early as 1612, but not until 1670 when Charles II granted the Hudson's Bay Company the whole watershed of Hudson Bay, was the fate of Canada's west decided. This watershed, known as Rupert's Land, embraced most of the present Quebec, Ontario, and the three Prairie Provinces, as well as parts of the United States.

For the next two centuries the story of the Canadian west was the story of the Fur Trade. The major developments in this story are illustrated in the museum—wars with the French, who tried to destroy the posts of the Company on the Bay; exploration westward by Company fur traders, as well as by French traders from Montreal; the coming of the North Westers, who succeeded the French traders after the conquest of Canada; and the subsequent strife between the two great companies, ending in the union of 1821. The story then broadens out to cover the whole west from Hudson Bay to the Pacific and up to the Arctic Ocean.

The visitor is shown how, under the guidance of the great Governor, Sir George Simpson, Company explorers penetrated to the farthest northern and western reaches of the present Dominion of Canada, carrying trade and the flag into the unexplored wilderness; how the Dominion of Canada took over the west from the Company in 1870; how settlers flocked in to take up farms on the Prairies; and how the C.P.R. crossed the continent and a new era dawned for western Canada, which has continued to this day.

After the general outline of the story has been illustrated, the history of each territorial section of the Canadian west is dealt with separately and enlarged upon. These sections are laid out in this order: Hudson Bay, Prairies, Woodlands, Pacific Coast, Mackenzie, Mountains, Arctic. The display is made interesting with a great deal of original Indian, Eskimo and pioneer material, and in this way the visitor is presented with a clear and memorable picture of the history of the western Canadian frontier.

Lighting in the Company museum is first-class, and a definite sequence has been preserved throughout.

The final exhibit is a model trading post stocked with goods typical of those used in a Hudson's Bay post with the Eskimos.

Registered attendance for the museum in 1940 was over 43,000. This figure represents about one-third of the actual attendance.

Two of the most popular exhibits are miniature groups or "dioramas" —the only ones of their kind in Canada—depicting the arrival of the York Factory brigade on a winter's night at Upper Fort Garry and the departure from Fort Vancouver of the horse brigade for the Company post at Yerba Buena, now San Francisco.

HENDERSON'S
Winnipeg
Streets and Avenues
1942

This section is presented in condensed form. Full information will be found in the Alphabetical Directory.

AVENUES all run East and West and are numbered under 200 East of Main Street, Main to Princess 200 to 300, West of Princess 300 and upwards.

STREETS running North and South are numbered from the Assiniboine River as a base Northwards, and again from Notre Dame as a base Northwards.

The word "street" is always implied.

NOTICE

✦ The Symbol following the residence name, indicates that to the best of our knowledge someone living in the house is the owner.

✣ This Symbol indicates that a telephone is located at this number on the street.

This new Home Owners, Tenants and Phone Directory is compiled from information taken on a special house-to-house personal canvass. We do not guarantee to be absolutely correct in every detail, but we believe it to be very accurate and complete, as far as it has been possible for us to get the information personally from someone at each residence. Where occupants have been absent, the "owner" information has been left out.
